

SRT MARINE SYSTEMS PLC
("SRT" or the "Company")

Vessel Tracking Order Received For Saudi Arabia

SRT, the AIM quoted provider of maritime domain awareness technologies, products and solutions, is pleased to announce that it has received an initial order and first payment for the supply of AIS vessel monitoring transceivers for deployment in Saudi Arabia. The order will be shipped during the current financial year.

The order is part of a national initiative which is expected to see up to 70,000 locally registered boats continuously monitored to enhance maritime security, safety and management.

Simon Tucker, CEO of SRT, said: "After a four year period of extensive consultations, technology and product evaluation, this small initial order is an important milestone and marks the start of the rollout. We look forward to working with our partners in the future on this national initiative."

This announcement includes inside information as defined in Article 7 of the Market Abuse Regulation No. 596/2014 and is disclosed in accordance with the Company's obligations under Article 17 of those Regulations.
