

**SRT MARINE SYSTEMS PLC
(AIM: SRT)
("SRT" or the "Company")**

Change of date of live webcast

The Company advises that the webcast announced for Tuesday June 5th 2018 has been postponed. This is due to Simon Tucker having to extend a foreign business trip unexpectedly.

SRT further advises that the webcast will now take place on Wednesday June 6th 2018 at 8:00am. The details to attend the web cast are detailed below.

SRT apologies for any inconvenience that this may cause.

Details of the webcast

Simon Tucker, CEO of SRT, will host the webcast and provide responses to questions emailed to the Company prior to the event as well as live responses to questions asked by viewers during the webcast.

Please note registration for the webcast is only available shortly before 8am on June 6th (the day of the live webcast).

To view the live webcast on the 6th June please follow the below instructions:

1. Go to www.srt-marine.com/news and scroll down the page to the "INVESTOR WEBCAST" section.
2. Click on the link (6th June 2018) and this will take you to a simple log in process which should be completed. Please remember this should be done immediately prior to the 8.00 a.m. start time.
3. Upon completing the log in process, you will be able to watch the webcast live and may, if you choose, submit questions using the "ask a question" text box on the viewing page for Simon Tucker to answer during the event.

Questions may be submitted prior to the event by emailing them to info@srt-marine.com. The identity of persons viewing the web cast and/or submitting questions will be kept confidential and will not be broadcast.

Shortly after the event an unedited recording of the webcast will be available in the news section of the SRT website.

About SRT Marine Systems plc:

SRT develops, manufactures and supplies maritime tracking technology and turn-key system solutions to marine stakeholders across the globe with a particular expertise in AIS. The Company's products and solutions are used by individual vessel owners, port authorities, maritime infrastructure owners, coast guards and national security agencies to enhance their maritime domain awareness. Applications include the tracking of commercial and leisure vessels; sustainable fishery; anti-collision; search and rescue; waterway management, port and coast security; pollution management; and environmental management.
